Follow the direction on the color- coding information to position T568A or T568B wiring, separate a little space on proper position and insert the wire pair by pair into each slot.
4

Press foil or braid shield to contact ground, and keep the cable straight;
Puch the wires with 110 or Krone impact tool and cut off the surplus wires.

5

Fasten the screws through metal case to hold tightly down for two cable jackets in the same time.

6

Place the metal cover onto the bottom case and fasten screws.

7

Cable tie

Then complete the installation.
