

3-Port USB 3.0 Hub with Gigabit Ethernet

3-Port USB 3.0 Hub with Gigabit Ethernet

Installation Instructions

- 1) Directly connect the Hub to the USB port of your device
- 2) Check that the blue LED is lit
- 3) Connect an Ethernet patch cable (sold separately)

Note: A Cat 6 cable is recommended for the best performance

- 4) Check your router documentation for installation information

Troubleshooting Tips

- Check that the LEDs are lit
- Test the Ethernet cable with another device
- Try a different USB port or computer
- USB hub ports are not designed for charging
- For more troubleshooting information go to: kb.cablematters.com and search for 202026

Customer Support and Contact Information

Cable Matters offers lifetime technical support as an integral part of our commitment to provide industry leading solutions. Email us with any questions at support@cablematters.com.

Warranty Information

This product is backed by a limited one-year warranty. Cable Matters warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair or replaced with equivalent products at our discretion. The warranty covers parts and labor costs only. Cable Matters does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

Limitation of Liability

In no event shall Cable Matters Inc. (including their officers, directors, employees or agents) be liable for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of, or related to the use of this product exceeding the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device must not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.
